The future is the Tablet and Phablet!

Space Production Hyundai and Xerxes Mobile is the sole and exclusive license keeper of Hyundai GIANT multi concern in Europe and World agent in charge of telecommunication for Tablets and Phablets.

Our main outwork is to develop, design and manufacturing of the tablets worldwide. Through our solid background in this section since 1989, we are trying to get the best components and unique design to put in the market.

We are the first company, which developed and made the 3D tablet glasses free in the world in 2012 with our reputable solution partners and also the first again in 2013 with a high-end 8-core tablet with retina display.

Our goal is to have the high end products with a reasonable value and competitive to the other brand and of course the most important thing customer satisfaction. We are looking for the new opportunities and reliable partners in all over the world to cooperate with us and make our unique products and brand together in the top position. Be one of our partners if you want to have the success and solid position in telecom section in future.

We would be glad to welcome you on board and share our success together in the word of telecommunication!
